

Amesbury CE Primary School

A fantastic washroom transformation

Amwell

Concept to completion

Acorn SGL

Amesbury CE Primary School has been serving its local community since the 1900's and currently caters for over 450 pupils ranging from Reception through to Year 6. Over the last few years the school has undertaken an outstanding refurbishment providing fantastic modern facilities for both pupils and staff. Amwell's washroom systems were installed for phase 1 in 2014 and the school were so impressed with the products that they returned to us to complete phase 2 of the project in 2016.

A variety of choices

Amwell's Playtime Arches and Acorn cubicles were specified for the Early Years and Years 1 and 2 washrooms. Both systems offer softly rounded low height doors and divisions enabling supervision of the children whilst making the washroom spacious and inviting. Our Playtime range was selected in High Pressure Laminate in our fun and engaging Dinosaur digital print, whilst our Acorn range was specified in a selection of colours in our most durable and water resistant Solid Grade Laminate material.

For the older pupils our Linea range was specified in Solid Grade Laminate for its style and durable qualities. The fluted pilasters and headrail give it a unique appearance. Our Splash system was specified for the staff toilets offering a smart and robust system. Amesbury CE Primary chose a variety of colours with matching duct panels and Solid Grade Laminate vanity units complementing each area.

Excellent attention to detail

"The products are of good quality and withstanding constant use. I had expected the odd problem with so much traffic every day but that has not been the case. They still look as new as the day they were put in – even the set that have been in use for over a year now."

"The bright colours have worked so well in making our toilets a 'good' talking point about our school. The children are proud of them and show them respect. Amwell's attention to detail was excellent along with making sure we got exactly what we wanted. Thank you Amwell!"
